

AN/ARC-201 Radio Set

Status: STD-To Be Determined; NSN: To Be Determined

Reference: Not Available

General Information

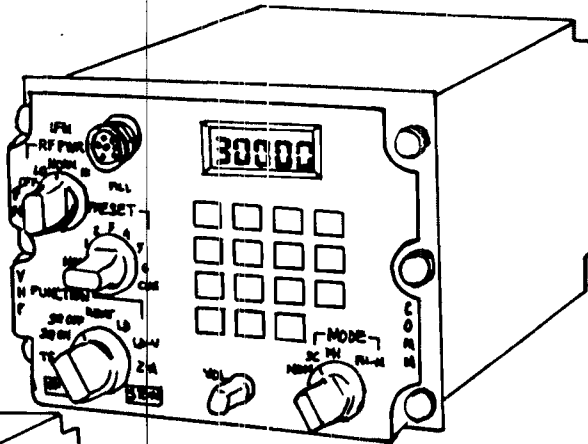

The AN/ARC-201 SINGARS-V radio is the aircraft counterpart of the advanced technology surface-based SINGARS-V combat net radio. Available in three configurations, the AN/ARC-201 incorporates all capabilities and features of the SINGARS-V family of radios. Designed to operate in the rugged environments of combat and support aircraft, this radio provides reliable, jam-resistant communications not previously available.
