

AN/MRC-115 Radio Terminal Set

Status: STD-B; NSN: 5820-00-167-8001

Reference: Not Available

General Information

The AN/MRC-115 is a radio terminal set which provides two 6- or 12-channel PCM telephone communications facilities for forward area units. It may also be used as a 6- or 12-channel PCM radio repeater. It is mounted on a 1/4-ton trailer and towed by a 1/4-ton truck. The generators are on a pallet which is carried on the 1/4-ton truck.
